LaMettry's Collision

SCRS

Chair

Vice Chair

# Mission Statement

The Mission of the CIC Data Privacy Committee is to identify, discuss and address practices and rights regarding the access and usage of estimates and repair order data.

# Scope

- 1) Identify the current companies capturing repair facility data through data pumps, and other forms of extraction software/methods, and how this data is being utilized, distributed, sold, or reported on.
- 2) Identify the current and future issues regarding the access and usage of repair facility estimates and repair order data.
- 3) Recommend guidelines, best practices, and/or standards if they exist, to protect the data rights of the individual subscribers, insurers, and vehicle owners when the information contained in the work product is being distributed, sold, or reported on outside their own internal usages.

# Data Privacy Committee Activities

- Monthly Tele-conference Calls
- Working Initially at Identifying All Parties that Utilize, Distribute, and Resell Estimate/Repair Order Data.
- Continue to Establish Definitions
- Create FAQ based on Problem Statements

# Questions or Comments ?
